

TRANSPORTATION EXPERIENCE

Grand Canalscape, 16th to 36th, Phoenix, Arizona

CLIENT

City of Phoenix

PROJECT COST

\$8.3 million

PROJECT SCOPE

3.5 miles, multi-modal transportation pathway

DISCIPLINES

Multi-Modal Design

Drainage Design

Landscaping

Pedestrian Lighting

EEC provided design of 3.5 miles of multi-use path along the Grand Canal including landscaping, pedestrian lighting, drainage basins, a pedestrian bridge crossing, and 1.5 miles of drainage improvements. The primary purpose was to design and construct a safe multi-modal transportation pathway. EEC coordinated with SRP and provided presentations for public meetings. This project was a Federal Aid Project which used TIGER funding.
